Ordering Lunch

Sam and Sofia are ordering their lunch with Shou. Japanese money, or currency, is called yen. Sam and Sofia have 2,000 Japanese yen. Sam is going to buy Oyakodon and Sofia would like the Bento Box. Sofia would like to buy a dessert as well. Does she have enough money to buy dessert?

BONUS QUESTION: At the time Sam and Sofia are buying sushi, one dollar equals 95 yen. If Sam and Sofia have 2,000 yen, how much is that worth in dollars? _____
Children’s Day

Did you know in Japan there is such a thing as Children’s Day? Why don’t we have that in the U.S.? Boys fly carp-shaped flags outside their homes (or in their houses if they live in apartments). On Children’s Day, families celebrate the health and happiness of their children. Children’s Day was originally known as Boys’ Day. Don’t worry, girls have their own day too! It’s called Hina Matsuri, or Doll Festival! Families celebrate their daughters by displaying dolls and feeding them food.

Below is a Children’s Day illustration. There are five carp kites flying outside. Which one is different from the others?
