A Butterfly’s Life

This book belongs to...
A butterfly lays an egg on a leaf.
A caterpillar begins to grow in the egg.
The caterpillar hatches and begins to eat.
What does it eat? It eats leaves!
A caterpillar is a type of larva.
The caterpillar grows and grows.
The caterpillar begins to build a cocoon.
Inside the cocoon, it is called a pupa.
It is also known as a chrysalis.
Quietly inside, changes are happening...
A beautiful butterfly emerges!
